DETAILED ACTION

Claim Objections

1. Claims 2, 4, 7 and 8 are objected to because of the following informalities:
claims 2, 4, 7 and 8, line 1, the phrase "computer-readable memory that can be used to instruct a computer to identify features" should be changed because a memory can store features but can not instruct a computer to identify features. Appropriate correction is required.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-8 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 1-8 recite mathematical algorithm without any limitation to a practical application. Therefore, the claimed invention is non-statutory.
